

Advance Design 2019 SP1 - Hotfix 1

NEW OPTIONS & IMPROVEMENTS

This **Hotfix** for **Advance Design 2019 Service Pack 1** brings two improvements regarding the Italian NTC 2018 code and the steel design computation speed.

1: SYNCHRONIZATION OF THE ITALIAN CODE NTC 2018 BETWEEN ADVANCE DESIGN AND BIM DESIGNERS

The new version of the National Building Code of Italy (**NTC 2018**) is synchronized between Advance Design and BIM Designers with respect to load cases and combinations (#18673).

2: OPTIMIZATION OF THE STEEL DESIGN FOR CLASS 4 CROSS SECTIONS

The run time for steel design has decreased compared to the 2019 SP1 version. The class 4 cross sections engine has also been revised (#18746, #18775).
